134 ARCHITECTURE
BIRKHA BAWARI

Anu Mridul designs a rainwater harvesting stepwell in Jodhpur. Called Birkha Bawari, it is a modern interpretation of an ancient water management system, says Devyani Jayakar.

144 PROFILE
SCIENCE OF DESIGN

The CADA office and its award-winning design for Dilip Chhabria's showroom in Hyderabad are the talk of the town!

furniture

Sahi and Sarthak recycle waste cloth and weave it to make contemporary and attractive furniture that fits today's times.

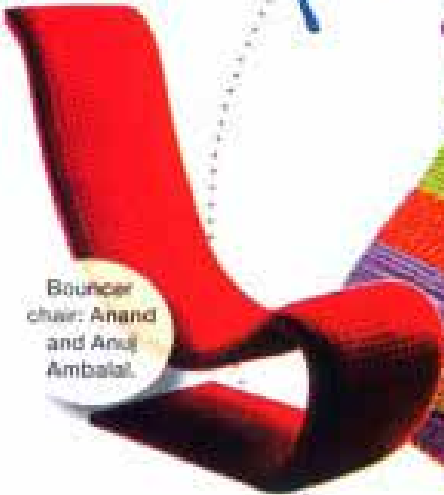

Walnut chair: Sandeep Sangru and Joshua Hishey.

Pulling out an ace

Bouncer chair: Anand and Anuj Ambalal.

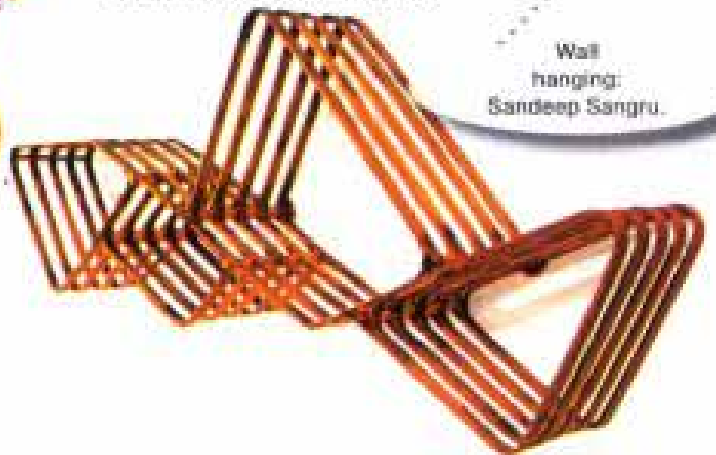

Tray table by Sahi and Sarthak.

Design Emporia brings together the work of eminent Indian designers who are giving new dimensions to furniture.

Wall hanging: Sandeep Sangru.

Sahasini Paul and Sandeep Sangru tap into those simple ideas that can make their way into people's hearts through good design. The Sweetheart Chair is a product that marks the changing face of design in India today.

furniture

The C Collection:
Rooshad Shroff compels one to come out of the traditional notion of a horizontal surface supported by four legs in possibly the most elegant way. The entire range has been carefully crafted with specially designed handmade joinery.

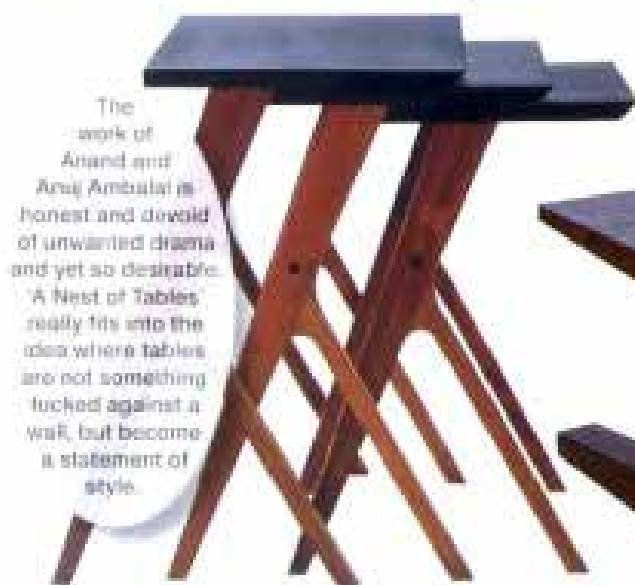

Designemporium.in brings brilliant designers of India on a common platform so that they interact directly with a global audience. It's an online destination for browsing and buying lifestyle items for your home. The three dynamic aspects of Design Emporia: e-commerce, e-gallery and e-promotions, facilitate both an in-depth insight into various aspects of design while helping predict emerging trends. The website hosts the works of both established, celebrated designers and budding talents, side-by-side.

The latest collection called 'Kairan' showcases the work of six ace Indian designers. Look out for engaging designs by Sandeep Sangru, Joshua Hishey, Sahil and Sarthak, Anand and Anuj, Suhasini Paul and Rooshad Shroff. 

Bamboo Table:
Sandeep Sangru and Joshua Hishey go beyond the standard realm to explore the material qualities of bamboo, bringing out that right balance of craft and art.

The work of Anand and Anuj Ambalal is honest and devoid of unwanted drama and yet so desirable. 'A Nest of Tables' really fits into the idea where tables are not something tucked against a wall, but become a statement of style.
