NEWS / SHOPPING / PEOPLE / TRENDS Edited by KATE WORTHINGTON

*Our guide to the latest lighting launches, luminaries to know about and the trends that will be shining bright this season*

## *Star light*

Conceived in 1962 by American designer Bill Curry for his brand Design Line, the 'Stemlite' lamp was a pioneering design of its time, replacing the traditional shade-plus-base model with a sleek, 'total look' typology. Curry's background in the aerospace industry clearly influenced its space-age lines and fluid form – the design was even used on the set of the original *Star Trek* TV series. It's been out of production for more than 40 years, but Gubi is now resurrecting the light across five variations, including a floor lamp and pendant light. From £373 ([gubi.com](http://gubi.com)).
